Class 1 to 10**

ABOUT US:

Vishwa Vidyapeeth Group of Schools perceives children as an integral part of the society. We strive towards holistic development of the child and recognize the imperative need of imparting a world class education. The first step was taken in the year 2012, by establishing the ICSE branch at Yelahanka, Bengaluru. The roots of the institution spread across the curricula, with IGCSE curriculum being introduced in the year 2016 and a branch at Honnenahalli, Yelahanka, with CBSE curriculum in 2018.

We believe that curriculum excellence with global dimension plays a vital role in moulding the children and keeping them at par with the global scenario.

** **Guru Shishya Parampara:** We emphasize on imbibing Indian Culture and Tradition. We teach children Bhagavad Gita all chapters from Preprimary to Higher Grades and the lessons taken from the same are incepted into the daily life at Vishwa Vidyapeeth. Celebrations of all important festivals help us to relive our grand legacy of Indian festivals, customs & traditions, irrespective of any religion.*

DIRECTOR'S MESSAGE

As parents, we always share a universal hope that our children will live happily ever after, with minimal worries and the ability to be successful as adults.

We recognize at Vishwa Vidyapeeth the desire of our parents to give their child a strong moral foundation, as well as the necessary life skills to thrive and be independent. Hence, we have designed our curriculum and programs in a way that instills the freedom in your child to face the problems that life poses to us at various junctures. It is not right to give freedom to child so early on to decide what is right and what is wrong since they are not matured enough to take the right path ahead. Instead laying a strong groundwork for the child with right exposure at this age will help them to nurture themselves to take a right decision in the future.

Unlike our childhood days, where we were enriched due to growing up in joint families, the new generation nuclear families have led to a loss of link with our rich culture and heritage. The quality time that we spend with our children is also a challenge in this era. Hence to bridge the gap, we have introduced various programs like Bhagavad Gita, Organic and i-farming, in-house kitchen and dining to provide healthy & nutritious Indian food as well as prominence to celebrating our National festivals including Independence day and Republic Day with great pride and fervour – to name a few. We have meditation classes for students and we emphasize a lot on learning the Vedas which are now being recognized not only in India but abroad as well for their rich content. Similarly we teach Sanskrit which helps the tongues to become more flexible and in turn helps students to pick up any Indian languages with ease.

Ms. Suseela Santhosh
Director, Vishwa Vidyapeeth

*** Transparency Creates Trust:** Programmes like Home Visit and Mother On Duty, ensure transparency is maintained and helps build a strong communication between parents and the school.

*** Teach 10 Life Skills by Age 10:** We focus on life skill classes to ensure our children are able to become self-dependent by age 10 in day-to-day routine activities. The school focuses on some basic programs like doing laundry, wrapping a gift, hammering a nail, treating a wound, changing a tyre, shopping groceries, preparing a simple meal etc.

*** Our Secret Teacher:** Vishwa Vidyapeeth CBSE School in Bangalore North, focuses on integrating Educative field trips to orient children to future career options in the fields of information technology, farming, construction, automation etc..

*** The World in our Classroom:** We believe in integrating technology where it is needed and keeping in touch with what is happening across the world. We integrate recent innovations in classroom teaching with IT techniques and aid to help Skype and connect with children across the globe, helping children to get initial exposure to international forum.

*** Reach for the Gold:** We give equal importance to Sports & Arts programme to ensure all our children play or get involved in sports/arts which they are interested in.

*** My Library, My Lifeline:** We offer Rich Library activities to imbibe reading habits into children at an early stage. To enhance English language skills we have "Unique English Enrichment Programme".
