

# **II VISHWA VIDYAPEETH II**

## **GROUP OF SCHOOLS**

### **PARENTAL COOPERATION (2025)**

Vishwa Vidyapeeth believes in maintaining complete transparency with parents. However, to ensure that the regular functioning of the school is not disrupted, we kindly request parents to adhere to the following guidelines:

#### **Guidelines to Parents**

***“Be the change you want to see” – Mahatma Gandhi***

- The School is considered the second home of every child, and the children are expected to take care of the school like his/her own home.
- Parents are advised not to send any valuables with their children to school such as jewelry, expensive items, mobile phones etc.
- The school follows a strict **zero-tolerance policy** regarding the safety and security of students. While the faculty makes every effort to ensure a safe environment, minor accidents may occasionally occur, as is natural with children. In such cases, we request parents to remain patient and understanding. At no point should parents use abusive language or behave inappropriately with any member of the staff. If such behavior is observed, the school reserves the right to take strict action, which may include striking the student's name off the rolls.
- Parents are expected to maintain decorum and discipline in and around the school campus.
- Parents are not permitted to ask questions regarding the school policies nor are they allowed to give any suggestions until asked.
- Without prior written appointments, parents are not permitted to enter the management office.

- Parents are not allowed to misbehave with any staff of Vishwa Vidyapeeth; if found otherwise, then at the school's discretion they can be asked to leave the premises.
- The School has always taken responsibility when it comes to academics and other areas of your ward's education but this does not authorize any parent to question the school without cause or otherwise; further to this, parents have to take their share of responsibility and ensure that work assigned for home is duly completed.
- Matters pertaining to academics should be strictly addressed to the faculty
- Any queries by parents should be first addressed to the class teacher via the school diary. It may then be brought to the coordinator/in-charge if it is not resolved. If the matter is still unresolved, it should be then brought to the notice of the Principal.
- Parents should ensure that a conducive environment is provided at home and their ward puts in regular study hours at home.
- A student can be granted leave of absence only for a valid reason; Pooja and family functions will not be considered a reason for sanctioning leave.
- Every circular given by the school should be duly acknowledged by the parent. ·In case a student has taken leave without prior sanction, he / she will not be allowed to attend classes until and unless a written application is submitted. No debate on this matter will be entertained.
- No late comings for any reason will be accepted and your ward will not be allowed inside the campus; none of the parents are allowed to ask otherwise.
- Attendance is mandatory for each and every student during every school event and more so if they are the main participants, they cannot be excused for any reason.
- Discipline is of utmost importance and we expect parents to cooperate with us regarding any disciplinary measures incorporated by the school. It is mandatory for parents to attend all PTMs during the academic session and also adhere to the timings given if they wish to discuss the performance of their wards. No other days will be scheduled for this specific purpose.
- School fees must be paid on or before the scheduled due dates. Late payments will attract a fine, and no requests for waivers or extensions will be entertained.

- The students have curricular and co-curricular competitions and programs every month. They will be awarded certificates and merit notes for their performances at the appropriate time.
- The students should be dropped and collected from their pick up points at the stipulated time. The buses will not wait for students if they are late. Any grievances related to transport should only be addressed to the transport coordinator; no issue should be discussed either with the driver or any other staff.
- Parents and Guardians are not allowed to walk into class or interview teachers during school hours. Any parent can take prior appointments with the concerned teachers in case they wish to find out the progress of the child.
- Parents are expected to cooperate in the work of the School by enforcing regularity and discipline and by taking general interest in their children's progress.
- Parents should check the Diary daily and note the teacher's remarks etc. Parents should ensure to scrutinize and sign the monthly reports and terminal examination results. Remedial measures should be promptly taken.
- Every student ought to devote sufficient time for private study daily.
- The success of a student's academic journey depends equally on the school and the parents. While we provide the best possible support and environment, it is crucial for parents to ensure that children complete homework, revise regularly, attend classes punctually, and participate in all school functions such as Independence Day, Republic Day, Annual Day, Sports Day, etc.
