## NEWSLETTER 2024

# ORIENTATION

Parent  
Teachers Meet  
and  
Orientation  
was  
conducted for  
classes VIII, IX  
and XII .

**Saptami Tithi is dedicated to Lord Surya. Shukla Paksha Saptami in Magha month is known as Ratha Saptami or Magha Saptami. It is believed that Lord Surya Dev started enlightening the whole world on Ratha Saptami day which was considered as the birth day of God Surya. Hence this day is also known as Surya Jayanti. On this occasion students performed surya namaskar asana in the morning assembly.**

# CLASS ROOM ACTIVITIES

# FIELD TRIP

*To inspire the younger generation to pursue careers in science and technology, fostering scientific mindset for the development of the nation, students of classes 9 & 10 visited Raman Research Institute on National Science Day, Wednesday, 29/02/2024.*

# MOTHER

## **WORK HARD IN SILENCE**

**'Work hard in silence' encapsulates a powerful idea for personal growth. It's not just about getting things done quietly. Rather, it is about harnessing the hidden potential of concentrated effort and internal reflection. Silence reduces distractions allowing you to enter in different thought processes. These moments focus on deeper mastery with complete immersion and productive energy. When a person practices this consistently, his state of mind transcends to better learning, faster skill development and deeper understanding of the chosen field. Man is not designed to struggle and there's struggle in our life because we are not realizing the greatest glory of life -silence. We must try and learn to embrace the master key as it is the best solution to individual problems.**

**Blaise Pascal is a scientist who gave so much scientific contributions to the world, gave a computer language to the world and a rational analytical thinker. Pascal says, 'All the wars in the world are due to the inability of a man to sit alone and be quiet.' Each person performs many roles with a lot of trifles. Only through silence is it going to quieten all these things.**

**Working hard in silence fosters intrinsic motivation. The sense of satisfaction comes from personal progress and the joy of mastering your most lovable skill.**

**This also builds resilience and long-term dedication. Away from the mundane routine of life and the noise around, silence helps us to connect our conscience and explore true passions, values and goals. This leads to self-awareness which is absolutely crucial for stepping in the right direction of our life. It also initiates making apt choices with our authentic self.**

**Silent efforts hones discipline, perseverance and self-independence. We learn to overcome challenges, adapt to difficulties and find solutions without any external support. This builds a strong character foundation for personal and professional success.**

**Working in silence allows us to appreciate the small victories and satisfaction of performing a task regardless of external reward. "Work hard in silence" is a guiding principle. From health, to a powerful mind, to a matured intelligence, to an equanimous emotional personality, to full of spiritual vibrations- your completeness is going to come only through silence.**
