Art & Craft

Art education in schools is important for several reasons. It helps students develop their **creativity and imagination**, which are essential for problem-solving and innovation. It allows students to express themselves and their emotions in a healthy and constructive way. Studying art can help students develop their fine motor skills and improve their hand-eye coordination.

*Keeping it in mind
Classes 6 and above
had few activities
based on Art.*

Overall, art education provides students with a well-rounded education and helps them develop important skills that will serve them well throughout their lives.

LAB ACTIVITIES

Lab activities done for class 4 and above

*Lab activities make science more tangible and concrete. This can help students develop an interest in STEM subjects, which may help them pursue careers in these fields. These activities are a valuable learning tool for students as they provide hands-on, practical experience that can help students better understand and retain the information, develop important skills and foster interest in **STEM fields.**"*

Children's Day

Children's Day was the best day said by most of the students.

Teachers were in charge of today's assembly. They succeeded in capturing the spirit of children via dance and music. The children enjoyed watching the teacher perform while noting the unfading innocence in their smiles.

The fun times didn't end there, though; classes from 3 to 8 participated in sports like throw ball and dodgeball football, while students of grades 1 and 2 danced and watched a movie.

Annadata Sukhibhava

Giving back to society

Students at Vishwa Vidyapeeth will continually work toward the **Zero Hunger Drive** at equal intervals rather than stopping with only one activity.

Kannada Rajyotsava

On 1st November 2022, Vishwa Vidyapeeth school commemorated the 67th *Kannada Rajyotsava* with pomp. We were blessed with the presence of the esteemed chief guest, *Prakash N Jingade*.

The program commenced with the flag hoisting of both the Indian and Karnataka flags. Furthermore, the guests of the program encouraged Kannada language appreciation through their speeches on significant moments of Karnataka's history.

Students and teachers of Pre-primary, ICSE, CBSE and IGCSE wings joined hands in ensuring the success of the multitude of performances which included folk dance, song, and drama.

Furthermore, government school students who have been undergoing the guidance of the CBSE wing's staff came through with a grand portrayal of Kannada Rajyotsava through dance and recited beautiful Bhagavad Gita shlokas.

प्रज्ञोद्दीपनम्

On the 5th of November 2022 **“प्रज्ञोद्दीपनम्”** Inter School Sanskrit Competitions were held in Vishwa Vidyapeeth Group of Schools Takshashila Campus Honnenahalli. There were 12 competitions organized in Primary and High School level. These competitions were conducted to create enthusiasm in Divine language Sanskrit. Girishchandra Vice Chancellor of Karnataka Sanskrit University was the chief of the inaugural program and addressed the gathering by requesting all the other institutions to organize such events to promote the divine language. For the afternoon **Rashtrapati Puraskar Awardee Prof A Haridas Bhat** retired principal of **Poorna Prajna Vidyapeeth Sanskrit Gurukul** graced the program with his divine presence and addressed the gathering by giving an eye opening speech to the students to get connected with their Teachers and Gurus with the hunger of knowledge.

Bangalore ke SITARE

Vishwa Vidyapeeth Group of Schools organized "Bangalore Ke Sitaare III" - powered by Entrar, at its two campuses, Magadha (Varthur, Whitefield) and Vikramashila (Yelahanka) simultaneously for all students across Bangalore.

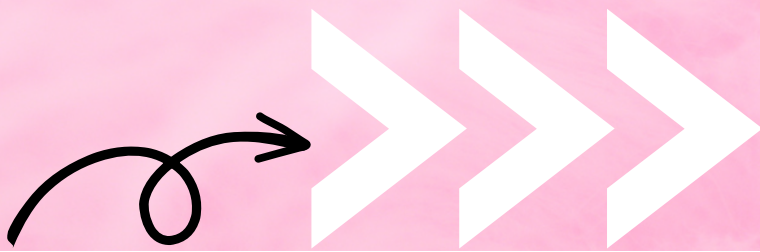

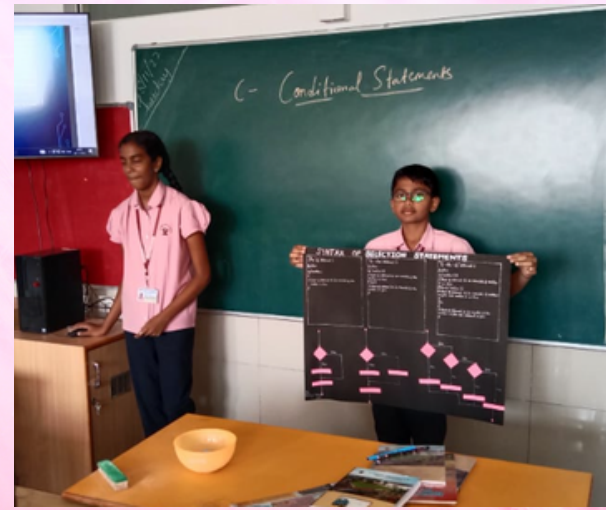

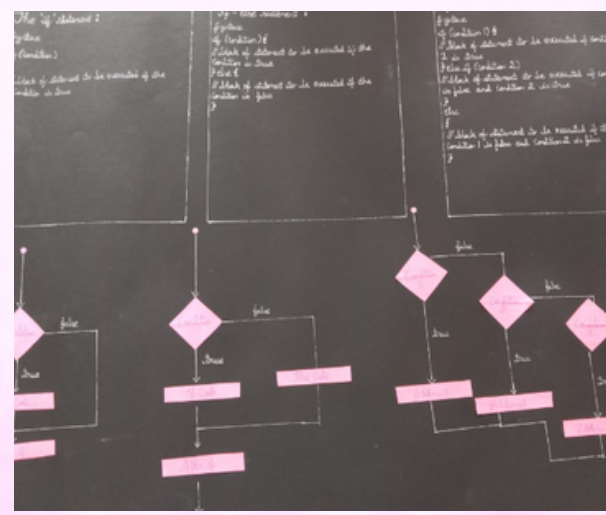

With more than 200 participants in the Yelahanka campus and around 100 participants in the Varthur campus, the program featured unique competitions for participation centered around the school's very own Dasha Prabodha concepts like Dance, Monoacting, Elocution, Bhagavad Gita Shloka competition, Vocal music, Rangoli, Mad Ads, Theatre time with Family, Best Out of Waste, and Culinary Arts.

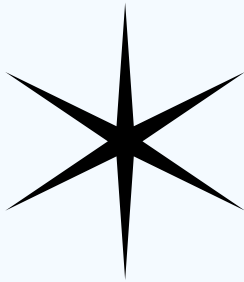

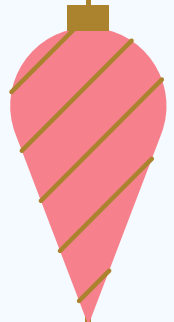

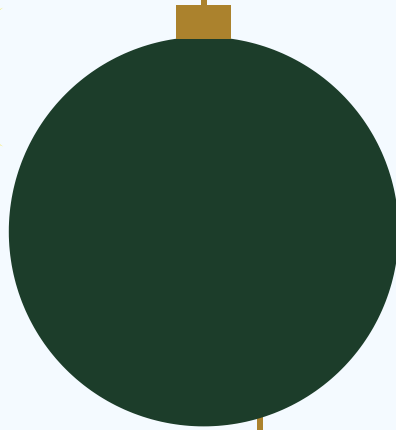

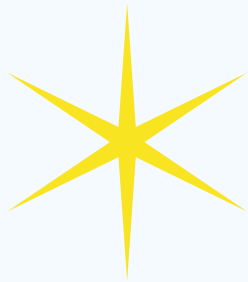

Ms. Bangalore Ke Sitaare is one such event in which the child has the freedom to express himself or herself by participating in various activities alone or with their parents. Traditional programs like the Bhagavad Gita competition, Rangoli competition, Culinary Arts, Theatre, Classical music, and Folk dances were the highlight of the event.

Collaborative Learning

The goal of this **collaborative learning** is to teach the students how to use conditional statements in C programmes and the principles behind them. Students from class 7 instructed those in class 6.

THANK YOU
