*NEWSLETTER* —————

**Cheers to July,**

# IKSHA MUN

Vishwa Vidyapeeth is delighted to announce the remarkable success of the students in **IKSHA Model United Nations (MUN)** held at Rashtrorathana Vidya Kendra, Bangalore. The participating students showcased their exceptional skills in diplomacy and public speaking, earning accolades and recognition from various **United Nations committees**. Vishwa Vidyapeeth has proudly provided a platform for students to hone their negotiation and debate skills.

Students performed under the meticulous guidance of the teachers from the SST department who provided them with necessary information to excel in the event.

We witnessed our students outstanding success, among several other students participating in the event. Their dedication and knowledge were acknowledged through the distinction of Distinguished Delegates. This recognition reaffirms their competence and ability to navigate complex global issues with poise and intellectual acumen.

Their achievements further reinforce our school's commitment to providing a nurturing environment that fosters critical thinking, international awareness, and diplomatic skills. We are immensely proud of their accomplishments and congratulate each and every student on their remarkable success.

The achievements of these exceptional students serve as an inspiration to their peers and reflect the school's dedication in providing a transformative educational experience.

# Investiture ceremony

The badging ceremony of Vishwa Vidyapeeth for the academic year 2022-2023 was held on 1st July 2022.

The ceremony began with the hoisting of the school flag followed by the school song and then with the invocation of Lord Ganesha with an inaugural dance by our students of grade VI and VII, followed by the lighting of the lamp by our distinguished chief guest Smt. Bharathi Krishnamoorthi accompanied by our Respectable Director Smt. Suseela Santosh ma'am and our Principal Ma'am Smt. Shanthi Seetharaman.

The program proceeded with the badging of the newly elected student council members for the year 2022-2023. The newly elected members were badged by the chief guest accompanied by our Director, Principal CBSE and Principal IGCSE. The newly elected office bearers administered by our Principal Smt. Shanthi Seetharaman took their oath. The prefect council dutifully repeated the oath and vouched to do their best in executing their responsibilities.

Taking their roles as the members and heads of the school council the school march was led by our newly elected council members with all houses followed by. The same was followed by the chief guest addressing the gathering.

The chief guest appreciated the efforts by the school and also congratulated the newly appointed school prefectorial board for their preparedness to take responsibilities. She also congratulated the parents of the newly selected prefects for playing a pivotal role in their child's leadership journey in our school. The newly elected council members were also congratulated by our director ma'am Smt. Suseela Santosh. The program thus came to an end with the maiden speech by our newly elected head boy and head girl, followed by the testimonials from the parents. The ceremony with a grand success came to an end with the national anthem.

John C Maxwell has rightly defined leadership as, leadership is not about title, positions or flowcharts. It is about one life influencing another. This quote rightfully sums up the school's endeavour in creating a student council which is a good role model for the other pupils.

# Field trip - SLR GreenTech

Educational visits provide excellent opportunities for students to interact with laboratory industries. This kind of exposure to environments outside school, would benefit students to get an understanding of the different sectors, fields and opportunities to contribute. One such experience VVP provided to its students is the visit to SLR GREEN TECH, a super facility plant tissue culture R&D lab in Devanahalli.

17 students from Grade 8 along with Ms. R Ramya Janakiraman visited this facility. Mr. Arun, one of the faculties at the facility was available to help the students around, guide them and give a briefing of what happens there.

Students were helped to understand the importance of Good Laboratory Practice (GLP), description of optimal working/laboratory area housekeeping, SOP, material handling and waste management practices of the laboratory. The objective of the lab is to drive the biotechnology business in the field of production and commercialization of biologics/biosimilar products for national interest. Students showed active participation and interest in learning the new technique in agriculture.

Students got insights about the different aspects at the facility which included, but not limited to preparing media for the culture, selection of healthy sucker, about autoclave and laminar airflow, lab equipments, culturing and subculturing, different stages of tissue culture, cocopeat among others from Aruji.

Arunji also gave insights about the application of modern techniques to the traditional agricultural practices which could lead to raise in the income and pave way for different sources of income. This practical perspective provided the students understand the open pathways available ahead for them.

This visit to the SLR Greentech was made possible by VVP Director Smt. Susheela Santosh and Principal Smt. Shanti Seetharaman. Students would ever be indebted to them for the exposure provided.

**Additional Notes** - GLP are a set of principles intended to assure quality and integrity of non-clinical laboratory studies to support research or marketing permits for products regulated by government agencies while GoodManufacturing Practice (GMP) is a system for ensuring that products are consistently produced and controlled according to quality standards.

# Mother on Duty

Mother Is the First Teacher of a Child. A child is the greatest blessing of God to the parents. But along with this angel, comes the responsibility of nurturing and growing your child. Vishwa Vidyapeeth has come up with this unique idea of bringing in 'Mom's in school to witness the holistic approach the school provides in the overall development of the child.

# Yoga Competition @ Kadur

"Yoga does not just change the way we see things, it transforms the person who sees."

# Yoga Competition @ Koramangala

Talent wins games , but teamwork and intelligence win championships

# HUL Field Trip

A field trip across the curriculum was organised on 5th July 2023 between 11:00 am to 12:30pm.

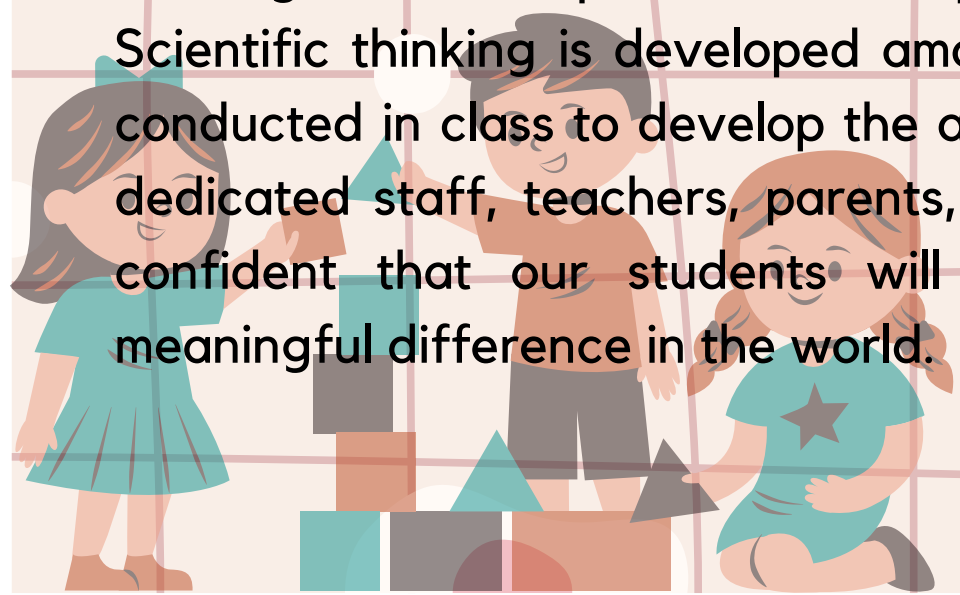

Commerce students of CBSE (11th Std- 5 students) and IGCSE (8th, 9th and 10th – 15 students) boarded the bus at 10:30am to HUL Distributors named Adarsh HUL Distributors.

Mr. Arun owns the company. They have around 60 employees. 50 employees in sales and 10 employees in MIS. Students took a round in stores and learnt about various products differentiation with its prices and quantity, brand names, familiar products and new products, arrangement of products in racks and different sections and categories, packaging, transport. Mr. Prasanth and Mr. Madhu took the students to a class room and gave a ppt presentation about the functionality, area coverage, duties of salesman, ROI, day today dealings, margins, turnover, break even, selection of owners to run distributorship with 3 I's namely Investment, Infrastructure and Involvement, product differentiation based on geographical areas, channels of distribution, competitors etc.

# S2S REFLECTIONS

The "Seed to Sapling Reflections " highlights the remarkable growth and development of our students during their time at Vishwa Vidyapeeth School. We are incredibly proud of their accomplishments and commend their dedication and hard work. Throughout the academic year, our students have embarked on a journey of growth and development, blossoming from small seeds of potential into promising saplings of knowledge, creativity, and resilience. Let's delve into their insightful reflections on this transformative experience. S2S- Seed to Sapling is to create an enriched, joyful and experiential learning environment where a child enjoys and actively participates to become knowledge generator and not merely being knowledge consumer. The focus is not only about creating an enriched, joyful and experiential learning environment where a child enjoys and actively participates in becoming a knowledge generator and not merely being a knowledge consumer. The focus is not only about intellectual development, but also an emotional stability and strong moral foundation. Creative and critical thinking is developed. Home exploration through ponder sheets. Scientific thinking is developed among students. Various activities are conducted in class to develop the above skills. With the support of our dedicated staff, teachers, parents, and the wider community, we are confident that our students will continue to bloom and make a meaningful difference in the world.

# Classroom Activities

# Sparrow House

**Under Subject Enrichment Activity of grade 6 and 7 which is based on Environment-Save Birds, students of 6th grade, made beautiful Sparrow houses ,with reference to the poem वह चिड़िया जो हम पंछी उन्मुक्त गगन के and in 7th grade students w.r.t the poem हम पंछी उन्मुक्त गगन के.**

Vishwa Vidyapeeth School organised a captivating life skill class that focused on helping students identify and harness their unique "superpowers." The objective of this innovative approach was to empower students by recognizing their individual strengths and encouraging personal growth. The primary objective of the life skill class was to enable students to discover their inner superpowers – their distinct talents, passions, and aptitudes. By recognizing these strengths, students would gain confidence, motivation, and direction for personal development and future endeavours. The class encouraged a supportive and collaborative atmosphere among the students.

# Life Skill Classes

# Flipped Class/ Peer Teaching

Tell me and I forget, teach me and I may remember, involve me and I learn."

— Benjamin Franklin

We as a school firmly believe on the above statement and to experience the same classes 8A & B explored a flip class on 03/07/2023, Monday. The Tsunami' lesson was conducted by a group of students from both sections.

Students elaborated the lesson in a diligent manner. They created a PPT as per Challenge Mosaic Model including Initial thoughts, LTP, SDG, Grammar. The students actively participated and demonstrated excellent teaching skills. At the end of the class they recapitulated the lesson effectively.

# Class One's Grand Adventure: A Day at the Big Market!

**Taking Grade One students to a supermarket is a great idea as it offers real-life learning, enhances sensory development, fosters social skills, and teaches practical math while promoting healthy choices and community connection—all in a fun and engaging environment that creates lasting memories.**

# SPIN WHEEL ACTIVITY

Spinning wheels can increase students' interest, challenge their thinking and enable them to be spontaneous in their speech.

To achieve the same on account of environment day, to create an awareness in the students about our nature and to make them responsible for a healthier and safe environment, Vishwa Vidyapeeth conducted spinning the wheel as a part of Subject Enrichment Activity for the students of class 1 motivated by our beloved Principal Smt. Shanthi Seetharaman. The students were asked to spin the wheel, to choose the topic on which they want to speak for at least 2min. Tiny tots participated and enjoyed the activity. They excelled in bringing out their creativity and expressing their concern for the nature around them.

# DESIGN THINKING

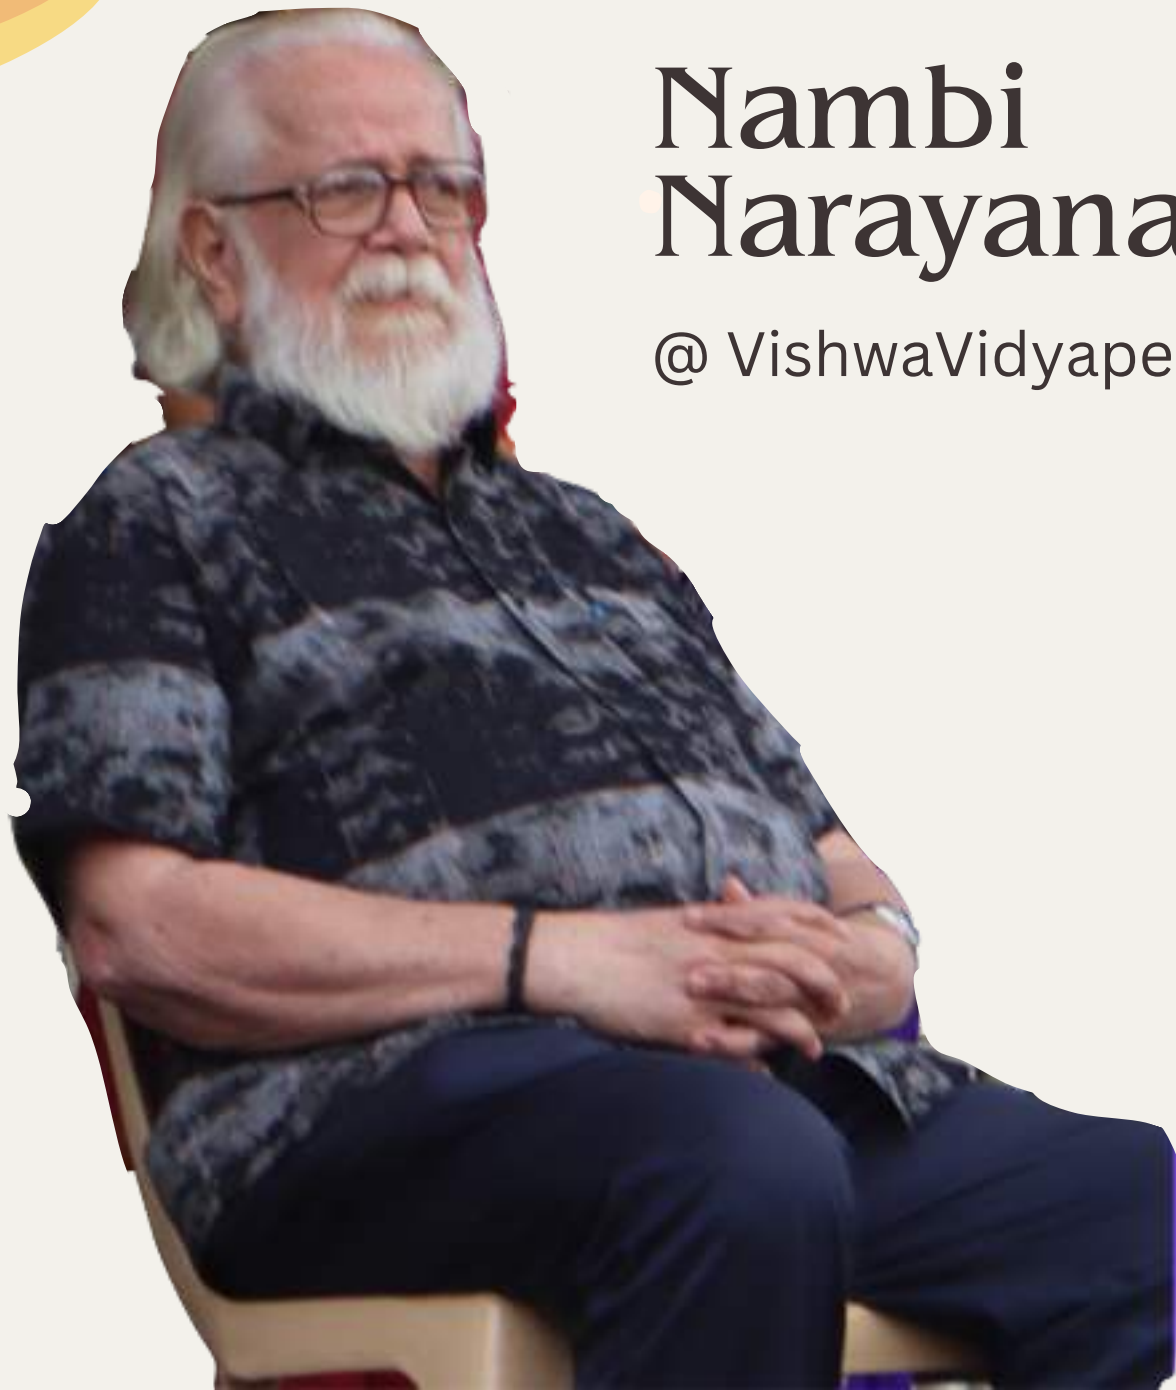

Design thinking has long been considered the holy grail of innovation—and the remedy to stagnation. At VishwaVidyapeeth design thinking classes are conducted at regular intervals by trained teachers in the field for classes 6,7 and 9. Design thinking originally came about as a way of teaching engineers how to approach problems creatively, like designers do. Here we aim to design experts in our school. Design for change relies on this methodology. The design thinking process empowers young minds to fulfil their projects and develop skills, including creative thinking, empathy, and collaborative problem-solving.

*Nambi Narayanan is a famous Indian aerospace engineer who worked for ISRO. He was conferred with Padma Bhushan by the Government of India, in 2019. Nambi Narayanan Sir touched upon his life experiences by highlighting the importance of honesty. He encouraged the students to ask questions and motivated them to do hard work to reach heights in life. Students posed many questions to the guest speakers on various topics from pursuing their passion to what is needed to succeed in life. The students showed their gratitude towards the guests by conducting Pada Puja. Students were thrilled to take his autograph. The programme culminated with a vote of thanks and Shanti Mantra. The students and staff were ecstatic to meet him. Our heartfelt thanks to our beloved Director Ma'am Smt Suseela Santhosh for giving such a wonderful opportunity to everyone.*

## Nambi Narayanan

@ VishwaVidyapeeth

# Shri Palam Kalyana Sundaram sir visiting Vishwa Vidyapeeth

We were honored to have the renowned humanitarian, Sri Palam Kalyanasundaram, visit our school. A cultural program showcased a captivating welcome dance, student-made thank-you cards, and a live portrait. In his inspiring speech, Palam sir shared how his mother was his role model. The event allowed students to interact and learn from the distinguished guest, covered by TV 5. His autograph was taken on a canvas book as a memento. The program ended with a vote of thanks and Shanti Mantra, leaving a lasting impact. Special thanks to our Director, Smt. Suseela Santhosh, for making this meeting with an eminent figure possible. A memorable experience for all!

# KSHAMAPANA STOTRAM

At Vishwa Vidyapeeth School, a transformative journey began with the initiation of the "Kshamapana Stotram" by our esteemed Principal Ma'am. This sacred chant was embraced as a guiding principle, fostering an environment of forgiveness, compassion, and unity within the school community. The "Kshamapana Stotram" is a timeless Sanskrit prayer that seeks forgiveness and liberation from past wrongdoings. Under the guidance of Principal Ma'am, the chant was introduced as a daily practice, encouraging students and staff alike to embrace forgiveness, both for themselves and others. The Stotram emphasises the importance of letting go of resentments and grievances, thus fostering a harmonious and compassionate school environment. Our Principal Ma'am envisioned a school community that exemplified virtues of empathy, understanding, and humility. She believed that forgiveness was the key to healing and building strong relationships among students, teachers, and staff. By initiating the "Kshamapana Stotram," she set in motion a transformational process that would influence the school's culture positively. Each day began with the entire school gathering for the morning assembly, during which the "Kshamapana Stotram" is chanted collectively. This set a tone of forgiveness and harmony for the rest of the day.

**Technology paired with Knowledge is more powerful**

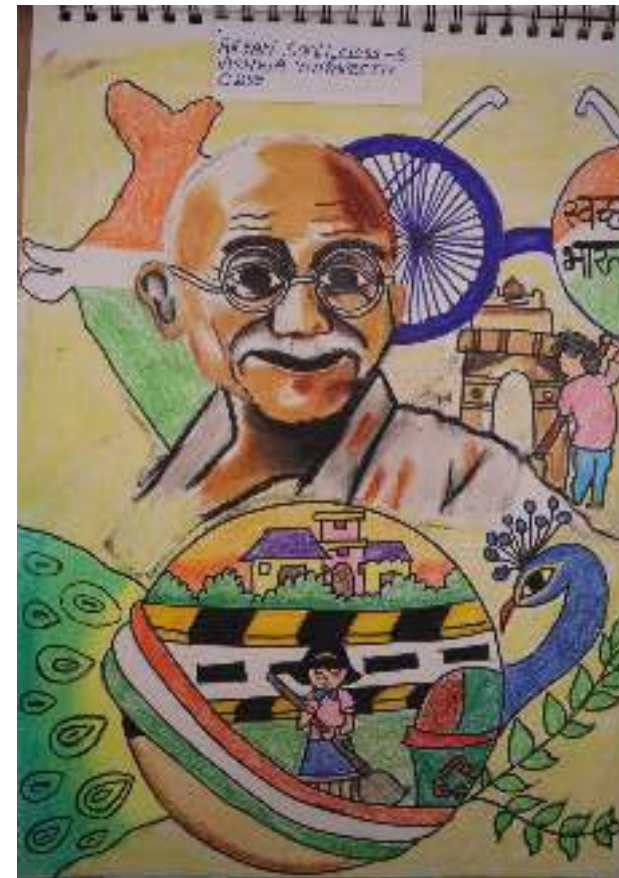

# **Proud of the budding talents.**

**Shining stars at the Inter school competition titled Lit fest held by Euro School.  
Our students got laurels to our school winning at the Ink and Pixel and French Cuisine  
competition.**

**Students displayed their critical thinking abilities on one hand and creative eye on the other  
hand.**

# STUDENT CORNER

My favourite leader

I am glad to share that my favourite leader is Narendra Modi.

Narendra Modi is a popular political personality & the current prime minister of the Republic India. He has won the 17<sup>th</sup> Lok Sabha Election from the constituency of Varanasi district in Uttar Pradesh. He was born on 17<sup>th</sup> of September in 1950 at Vadnagar city of Gujarat state in India. His father's name is Damodar Das Mulchand Modi & mother's name is Heeraben Modi. He is a motivating leader & is constantly striving to get our country to the top. This is the reason I admire Modi ji and would always follow his footsteps.

KAVYA ZALA - 6B

# STUDENT CORNER

" When God created humans, he wished to be with each and everyone, but unable to do so physically he created a version of him in the heart of mothers, filled with goodness, love and affection."

My mother, my inspiration. She inspires and motivates me to grow without any barriers. It seems to me that my mother looks at life as a challenge and wholeheartedly. She maintains a perfect work-life balance. She works as a Systems Manager at Hexaware Technologies, with a total of 19 years of work experience. Everyone is very fond of her at her workplace. Though being a single parent can bring up strong emotions, including relief, excitement, anger, fear and sadness, she accepted it as a time for learning about oneself and finding new directions. My mother always ensures she has time for me and my grandparents. She recognizes her strengths and focuses on the things she can control. She is strict when it comes to discipline, however, gets emotional herself after scolding me. She never hesitates to discuss when in need of help. I think of my mother as a loving, caring and independent woman who has overcome all odds to ensure that I become capable enough to independently handle all battles life throws at me.

My mother is my biggest pillar of support. She is my friend and my guide and she always lets me make my own choices. I hope I can always live up to her expectations, when she says "Do whatever in life, but firstly believe in yourself, never hurt anyone, always give respect and most importantly be a good human being". I wish that one day I can become the perfect son just like you are the perfect mother.

Love you always, Mom

# TEACHER'S CORNER

**“If you don’t like to read, you haven’t found the right book.” – J.K Rowling**

I absolutely believe in the above quote. I always dreamt of becoming an avid reader but was clueless about how to start reading books.

Initially, I started reading books by Mrs Sudha Murthy. She has written numerous books about family, love, social issues, etc. Her simple and engaging writing style with an in-depth portrayal of the characters is quite fascinating. One of the main features of all her books is that they look just real. You get connected to them. Her work always inspires one's life .

I have read most of her books and each of her books is my favourite. Here are some of my favourites that I recommend: Mahashweta, Dollar Bahu, House of Cards, Wise and Otherwise, Gently Falls the Bakula, Three thousand stitches, The Mother I Never Knew etc.

I have read other Indian authors' books also. Still, I wouldn't compare her works with others. She is one of my admired authors as well as a respected human being.

**My favourite quote from one of her books:**

**"If you try to please everyone, you will please no one. It's impossible to lead your life for others' happiness."**
