# THE VISHWA VIDYAPEETH

Your guide back to school

Testing if 2.42 micrograms of Citronellol Formate

can effectively kill ten pulse beetles

**SCOPE TO EXPLORE ON SCIENTIFIC TEMPER**

Kartikeya Class X and Harini Class VI had exposure to insect olfaction-related work in Dr.Kesavan Subaharan's Veterinary Entomology laboratory, ICAR - National Bureau of Agricultural Insect Resources, Yelahanka campus, from April 24th to 28th 2023. During their internship program, students spent time culturing insects for experiments, Identifying various bio stages of insects, and Identifying compounds that are toxic to insects. Students were excited to see the world of insects both beneficial and harmful and ecologically safe strategies adopted to manage them. They tried learning clean and green technologies in pest management.

Hithesh Karnam Class X and Harshika Adapala Class X took part in the Summer School of Practical Electronics, organized by the Electronics and Engineering group of Raman Research Institute, Bangalore, from 19th April to 19th May 2023.

Children attended lectures - demonstrations given by Professors of various departments. In practical sessions students learned about semiconductors, making PCB, to construct different types of circuits with PCBs and Breadboards. They were also exposed to simple projects in Arduino.

Children shared their experiences with their classmates by compiling their work in the form of PPT.

# “DON'T LET YOUR LEARNING LEAD TO KNOWLEDGE, LET YOUR LEARNING LEAD TO ACTION.”

Orientation for Class XI Science helped students and parents in understanding how the academic year will function. The principal encouraged the students to strive for excellence and work towards their goals and wished them luck for their future endeavors. The students were delighted to begin their Academic Year with lot of zeal and enthusiasm.

Welcoming Students of class  
XI science for a new  
beginning.

**GRADES X AND IX JOIN US BACK TO ACHIEVE THEIR DREAMS**

“COMING TOGETHER IS A BEGINNING, STAYING TOGETHER IS PROGRESS, AND WORKING TOGETHER IS SUCCESS.”

Orientation marks a successful beginning of a school session as it assures the new students that they made the right decision in choosing their school. It also helps students prepare for a successful career with a clear vision about what lies ahead and what can be achieved at the end of their courses.

Children were happy to know about various options and facilities they avail at Vishwa Vidyapeeth may it be for language options or sports(indoor and outdoor), music, Bhagavad Gita etc.

## **“Small cheer and great welcome makes a merry feast.”**

Vishwa Vidyapeeth CBSE warmly welcomed the children from Grade 1 to Grade 8 respectively to their 1st assembly after summer vacation.

Special assembly was hosted at Vishwa Vidyapeeth CBSE campus by the teachers Mrs. Swathi Singh and Mrs. Apoorva.S along with all the dear teachers participating in the assembly presenting one or the other event.

**“JUST A LITTLE SOMETHING FROM US TO YOU.”**

**It is just about time to welcome students back to school! Teachers at Vishwa Vidyapeeth CBSE prepared beautiful handmade welcome gifts for their class children involving lots of love and best wishes. First day jitters are a real thing for many students, and a small gift from the teachers may be just the fun thing to put our dear children at ease!**

# **"Learning is not attained by chance, it must be sought for with ardor and attended to with diligence."**

Vishwa Vidyapeeth believes that education is a never-ending process. It doesn't stop after earning a degree and starting a career. Through continuing education, career-minded individuals can constantly improve their skills and become more proficient at their jobs. At Vishwa Vidyapeeth CBSE our beloved principal ma'am Mrs. Shanthi Seetharaman has provided all of us a great opportunity in the school by encouraging teachers to pursue professional development, not only to ensure the best learning outcomes for their students but also to be more effective and satisfied in various other aspects of their work. Sessions by Ms. Rajeshwari, Ms. Megha, Ms. Neerja, Ms. Reshma, Ms. Namitha along with the S2S team for Maths and Science teachers were conducted in a very effective and successful manner.

# Professional Development session by Dr. Archana Shukla

“Biodiversity we must keep, so in the future we don’t weep.”

At Vishwa Vidyapeeth we all had a wonderful opportunity to meet Dr. Archana Shukla and understand and her brilliant inspiring work with regard to:

1. Biodiversity
2. Initiating bar codes to trees
3. Creating sparrow house and installing them above the ventilators
4. Involving students in ‘Project Based Learning’
5. Collaborating with the forest department, the commissioner for her support in her projects.

“Give value to each and every organism.”

# EXCHANGE PROGRAMME

The Teacher Exchange Program, like all exchanges, is intended to provide participants with broad exposure to varied culture and society, and to foster greater appreciation among fellow teachers.

One such opportunity was created in Vishwa Vidyapeeth to provide us with an opportunity to collaborate with B.S International school.

The collaboration was on curriculum, pedagogy, and various best practices in the school followed by a campus tour. The programme also included an insightful session by CBSE Principal, Smt Shanthi Seetharaman.

This program ensured educators return to their schools to share what they've learned and implement for better teaching and learning.

## Objectives of Curriculum Team at VVP

- Evaluate student needs.
- Evaluate teaching methods.
- Develop learning goals.
- Develop learning plans to meet learning goals.
- Develop and compile curriculum to drive lessons and instructions.
- Review and recommend educational software, books, videos, and other resources.

## Curriculum Committee

2023 - 2024

## Student Reflection on Reopening Day

Today, going back to school after two months off felt different. I suppose I'd say that every year, but this time I noticed many new faces with new hope and new aspirations.

At first I felt a bit astray, but I chose to see this as a positive change. I believed that this year would bring a better teaching style and more opportunities for participation and interaction in everything we do.

Overall, today was enjoyable. There were a few lighter moments, but most of the day was pleasant and refreshing. I felt hopeful about this year, expecting it to be a time of growth, new experiences, and making connections.

We also had a sports period where we could meet our friends after a long time and play with them and have fun with them overall, it was joyful when our class teacher made a gift for us and gave it to us as it was our first day after vacations.

**Daman Vamsi**  
**Class IX A**

“Ability may take you to the top, but it takes character to stay there.”

In the Personality Development Class, I am guided to believe in myself, to appreciate small wins, and learn from losses while maintaining a positive outlook. It helps me to feel confident, which in turn manifests in the way I carry myself. Also, to take care of my physical and mental health, and to know that nobody is smart enough to know everything and that we all learn as we grow.

**Learning Bhagavad Gita teaches me to lead a good life, Yoga helps to stay intact with my soul and mind.**

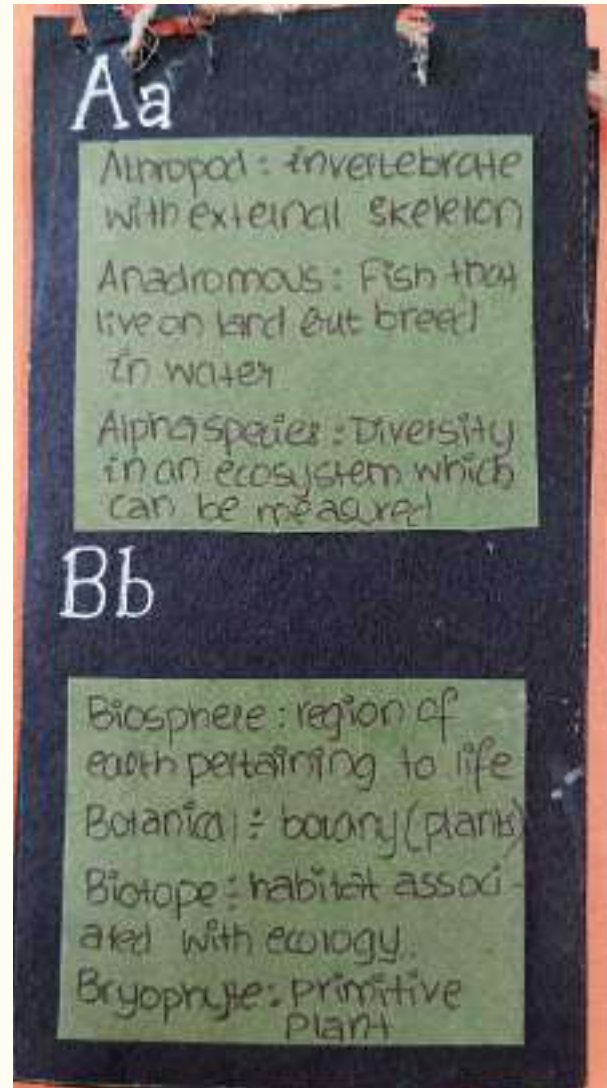

**Roshan J**  
**Class XI Science**

# Creatives by Class IX & X students

# Teacher's Corner

## THE THREE C'S: PARENT-TEACHER PARTNERSHIP

**COMMUNICATION** The first is communication between home and school. Like any relationship in life, communication between the parent and the child's teacher is key.

Creating an opportunity to interact and talk to the child's teacher throughout the year will definitely enhance the child's performance.

**CONSISTENCY** The second component of an effective partnership is consistency. This involves opportunities and experiences the parent provide at home to support the child's learning.

This also is an important component which can be practiced in the form of frequent PTMs and constructive feedback sessions between teacher and parent.

**COLLABORATION** The third component of partnering is collaboration. Collaboration will be easier if communication is frequent, and the parent consistently create opportunities for the child's learning.

Reshma Bhattacharya

## The 3 C's to SUCCESS
